## SKILLS

ReactJS

Next JS

JavaScript

Node.js / Express.js

HTML / CSS

Tailwinds CSS

C#

C/C++

Open AI

Bootstrap

UI Design

Git

Php

Figma

Supabase / MongoDB / MySQL

Excellent communication

Project Leadership

Problem Solving

Team Management

## About Me

Accomplished software engineer with a strong foundation in front-end design and a solid transition to full-stack development with the **MERN(MongoDB, Express.js, React, Node.js)** stack with **Next.js** and **Python**. I excel at building scalable, high-performance web applications with seamless user interfaces, robust backend integrations, and secure coding practices. Adept at collaborating with cross-functional teams, I bring a keen eye for design and a detail-oriented approach to delivering end-to-end solutions that drive business success.

## Education History

### 2022- Present

**Bachelor of Science in Computer Science**  
PMAS Arid Agricultural University, Gujrat

**CGPA: 3.78 /4.0**

## Employment History

### November 2025 – Present

#### **Full-Stack Developer**

Lahore, Pakistan

- Developed dynamic web applications using the MERN stack
- Designed responsive UIs using React and Next.js

### August 2025 - October 2025

#### **Intern (Agentic AI & React)**

Cyber Silo

**(On-Site)**

- Contributed to Agentic AI systems and React projects
- Developed AI-driven applications

## Project History

---

### MS-EventSphere

(Full Stack)

- Built with Next.js and MongoDB Atlas featuring server-side rendering for improved SEO and scalable data storage.
- Comprehensive admin dashboard with event moderation, approval workflows, and user management capabilities
- RESTful API with Express.js implementing optimized MongoDB queries, indexing, and secure authentication middleware.

### Culinary AI

(Full Stack)

---

- GPT-4 powered conversational AI assistant for order processing, menu browsing, and table reservation management.
- Real-time order tracking with Supabase Realtime and WebSocket connections for instant kitchen-customer updates.
- Full stack solution with React.js, Node.js/Express.js backend, and PostgreSQL database with JWT authentication.

### Concert Booking

(Full Stack)

- Responsive concert booking platform with user authentication and dynamic ticket booking using PHP and MySQL
  - Interactive UI with Bootstrap framework ensuring cross-device compatibility and smooth mobile-desktop experience
  - Secure MySQL database design managing user accounts, event information, and booking records with data integrity.
- 

### Pharmacy Management

(Desktop App)

- Desktop application for pharmacy operations including inventory tracking, prescription management, and secure admin access.
  - Relational database schema in SQL Server with normalized tables and optimized queries for efficient data operations.
  - Automated sales tracking and receipt generation to streamline daily pharmacy operations and record keeping.
-
